

KOMACHI GREEN SOLID TIRE

" HIGH PERFORMANCE "
LOW COST

V.S. Industrial Tire is proud to offer our line of recycled and remolded tires. This line is focused on providing an Eco-friendly alternative when searching for industrial tires, while also providing the heavy-duty capacity required.

This line of tires are manufactured from recycled solid tire cores that are remolded with new rubber.

Recycled tires are collected from customers like you. Please ask us how to join in our recycling program and help reduce waste.
